

Parents of Children In or Entering Preschool & Grades K-12

Why Your Child Needs Shots

The Idaho School Immunization Law requires that children be up-to-date on their immunizations (shots) to attend school. Whenever children are brought into group settings, there is a potential for the spread of infectious diseases. Diseases like chickenpox, measles, and whooping cough spread quickly, so children need to be protected before they enter preschool and grades K-12.

What You Need At Registration

You will need to present your child’s immunization record to the school at the time of registration to enroll your child in school. The immunization record must show the date (month, day, and year) your child was given each required shot. If you do not have an immunization record or your child has not received all required shots, call your doctor or local health department now for an appointment.

Required Shots for School

Review your child’s immunization record to make sure you have a date for each shot required.
